Schuykill Acts & Impacts is a 6 day watershed expedition that is offered to a team of twelve high school students from the five counties (Schuylkill, Berks, Montgomery, Chester, Philadelphia) in the Schuylkill River Watershed. Students will learn about different water quality impacts in the watershed, do hands-on testing, learn from and interact with environmental professionals, and will camp, kayak, and have tons of fun! This program is offered at no cost to participants.
